ON-TRUX Ltd.
Roll-off Systems

At On-Trux we believe that your trucks should be working all the time, not sitting idle because it isn't the "right truck" for the job. With On-Trux systems and attachments, you will always have the right truck for the job at hand to make your business more productive.

It's the original transformer. A truck with an On-Trux Roll-Off System uses interchangeable decks, bins and bodies, so one truck becomes a true multi-purpose fleet – without a fleet's expense. Costs go down, productivity soars.

At On-Trux work we closely with our customers to understand their unique requirements and then develop innovative solutions for their material handling requirements that results in a fleet of versatile trucks loaded with value.

Cost effective, versatile, efficient and safe, **doing more with less really is possible.**

Points to consider

- Increased truck utilization with less trucks
- Transform your truck fleet into multi use vehicles
- Improve productivity, reduce capital and operating costs
- Lower maintenance, fuel, license and insurance costs
- Use interchangeable bodies to reduce number of trucks in fleet
- A roll-off equipped truck can be transformed to do any job
- Use for seasonal applications
- Use as a dump unit in spring to fall and a plow with spreader in the winter
- Safely load and unload at ground level, no climbing
- Use with flat decks, waste collection, recycling, leaf collection, cube vans, storage units, & more
- Bodies can be used for many years without replacement
- Eliminate the need for trailers
- Keep the truck working, no need to sit idle
- Provide more services for low additional cost
- Increase internal capabilities
- Lower costs by doing out sourced services in house
- Small towns/municipalities can combine services and lower costs
